

Instructions for orders starting on date other than certification start date

Action / Instruction	Screen Shot																																											
	<p>Scenario: Patient's certification 'from' date is 09/20/2005 but PT orders don't begin until 09/23/2005. You will not need to document '0 x wk for 1 wk'. The system will automatically insert the phrase 'beginning mm/dd/yyyy' into the order text of the 485 when the order start date is not equal to the certification 'from' date.</p>
