

Instructions to install CarePortalUpdate06.02.07 [February 7th, 2006]

Action / Instruction	Screen Shot
<p>We have prepared a new update that will need to be applied to your Care Portal™ server. It's available at http://www.goldenrulesoftware.com/downloads/careportal/updates/CarePortalUpdate06.02.07.exe</p> <p>Running the update is simply a matter of clicking on the link while on Care Portal™ server and running the install with the default options selected. It only takes a minute to run.</p> <p>NOTE: All users must be out of the system in order to run this update.</p>	
<p>1. When you click on the link above [or enter it into the address bar of Internet Explorer], you will be presented with the screen to the right. Click the [Run] button.</p>	
<p>2. Internet Explorer may prompt you a second time to run the update. Click the [Run] button.</p>	
<p>3. The WISE INSTALLER will then start.</p>	

Action / Instruction	Screen Shot
<p>4. Click the [Next>] button.</p> <p>NOTE: If you have multiple databases, you will need to run this update once for each database. When running it for your other databases, use the browse button to navigate to the alternate location. Please contact the Support Center at www.goldenrulesoftware.com and log a helpdesk ticket should you need assistance for updates to additional databases.</p>	
<p>5. The update will run and then display the screen to the right. Click the [Finish] button.</p>	
<p>6. You can now allow users to log into <i>Care Portal</i>[™] and resume operations.</p>
